Post-doctoral research position in community-based health care at Northwestern University

Post-doctoral research position available in Industrial Engineering and Management Sciences at Northwestern University for the 2013-2014 academic year. The position will support on-going research in community-based health care for chronic disease, led by Professors Seyed Iravani and Karen Smilowitz at Northwestern and Professor Sarang Deo at India School of Business.

The post-doctoral researcher will work closely with the team, consisting of the three faculty, graduate and undergraduate students, as well as collaborating with our disease management partner. The post-doc may also participate in activities of the Center for Engineering and Health (http://www.feinberg.northwestern.edu/sites/ipham/centers/engineering-health.html) in Northwestern’s McCormick School of Engineering and the Institute for Public Health and Medicine at Northwestern’s Feinberg School of Medicine (http://www.feinberg.northwestern.edu/sites/ipham/).

Applicants should have a Ph.D. in industrial or systems engineering, operations research, management science, statistics, or other-related fields before the appointment begins. Strong written and oral communication skills are a must. Research experience in healthcare is encouraged, but not mandatory.

To apply, please send a cover letter, a curriculum vitae, and three letters of reference to iems-postdoc@northwestern.edu.
